

We are determined to end poverty and hunger in all their forms and dimensions and to ensure that all human beings can fulfil their potential in dignity and equality and in a sustainable environment.

We are determined to protect the planet from degradation, including through sustainable consumption and production, sustainable management of its natural resources and taking urgent action on climate change, so that it can sustain, protect and promote the needs of present and future generations.

We are determined to ensure that all human beings can enjoy peace, justice and sustainable development and that economic, social and technological progress occurs in

Declaration

Introduction

1. We, the Heads of State and Government and High Representatives meeting at the United Nations Summit for the Sustainable Development Goals, 25 to 27 September 2015, as the Organization celebrates its seventieth anniversary (as decided today on the global Sustainable Development Goals).
2. On behalf of the peoples of the world (as adopted in a historic decision on a comprehensive, people-centred, just, equitable and transformative

sustainable/ inclusive and sustainable economic growth (in particular) or developing States/ while remaining consistent with relevant international rules and commitments. We acknowledge also the importance of the regional and subregional dimensions/ regional economic integration and interconnectivity in sustainable development. Regional and subregional arrangements can facilitate the effective translation of

Sustainable Development Goals and targets

57. Concluding an inclusive, process-oriented intergovernmental negotiations/ and based on the proposal of the Open Working Group on Sustainable Development Goals¹⁵ which includes a candidate list of 17 goals and targets which have been agreed.

58. The Sustainable Development Goals and targets are integrated and indivisible/ global in nature and universal/ taking into account different national realities/ capacities and levels of development and respecting national policies and priorities. Targets are defined as aspirational and global/ which each Government setting its own national targets guided by the global level of ambition but taking into account national circumstances. Each Government will also decide on these aspirational and global targets should be incorporated into national planning

Goal 1. End poverty in all its forms everywhere

- 1.1 By 2030, eradicate extreme poverty (currently less than \$1.25 a day)
- 1.2 By 2030, reduce at least by half the number of men, women and children of all ages living in poverty in all its dimensions according to national definitions
- 1.3 Implement nationally appropriate social protection systems and measures for all

8.c. Significant increase access to information and communications technologies and strive to provide universal and affordable access to the Internet in least developed countries by 2020

Goal 10. Reduce inequality within and among countries

10.1 By 2030, progressively achieve and sustain income growth of at least 7% per cent of the population at a rate higher than the national average

10.2 By 2030, reduce to less than 1% the social, economic and political inequality of all, irrespective of age, sex, disability, race, ethnicity, origin, religion or economic status

10.3 Ensure equal opportunities and reduce inequalities of outcome, including by eliminating discriminatory laws, policies and practices and promoting equal legislation, policies and action in this regard

10.4 Adopt policies, especially fiscal, wage and social protection policies, and progressively achieve greater equality

10.5 Implement the regulation and monitoring of global financial markets and institutions and strengthen the regulatory system

10.6 Ensure enhanced representation and voice for developing countries in decision-making in global international economic and financial institutions in order to deliver more effective, credible, accountable and legitimate institutions

10.7 Facilitate orderly, safe, regular and responsible migration and mobility of people, including through the implementation of planned and well-managed migration policies

10.a Implement the intent of the Declaration on Special and Differential Treatment for developing countries/ in particular least developed countries/ in accordance with the World Trade Organization agreements

10.b Encourage official development assistance and financial flows, including foreign direct investment, to States where the need is greatest, in particular least developed countries/ African countries/ small island developing States and landlocked developing countries/ in accordance with their national plans and strategies

10.c By 2030, reduce to less than 3% the transaction costs of migrant remittances and eliminate remittance corridors with costs higher than 5% per cent

Goal 11. Make cities and human settlements inclusive, safe, resilient and sustainable

11.1 By 2030, ensure access for all to adequate, safe and affordable housing and basic services and upgrade slums

11.2 By 2030, provide access to safe, affordable, accessible and sustainable transport systems for all, improving road safety, notably by doubling road safety, doubling public transport, with special attention to the needs of vulnerable populations, women, children, persons with disabilities and older persons

11.3 By 2030, enhance inclusive and sustainable urbanization and capacity for all, particularly by integrating and sustainable urban planning and management in all countries

are sustained efforts to address ongoing challenges should be strengthened through the exchange of experiences, improved coordination and better and more coordinated support of the United Nations development system / the international financial institutions / regional organizations and other stakeholders.

70. The Secretary-General will lead a high-level panel of experts to develop a blueprint for the Addis Ababa Action Agenda in order to support the Sustainable Development Goals. The blueprint will be based on a multi-stakeholder collaboration between member States/civil societies/private sector/scientific community/United Nations entities and other stakeholders and will be coordinated by a United Nations inter-agency team on science/technology and innovation for the Sustainable Development Goals/ a collaborative multi-stakeholder forum on science/technology and innovation for the Sustainable Development Goals and an online platform.

0. The United Nations inter-agency team on science/technology and innovation for the Sustainable Development Goals will promote coordination/coherence and cooperation within the United Nations system on science/technology and innovation-related matters/ enhancing energy and efficiency/ in particular to enhance capabilities/building initiatives. The team will draw on existing resources and will work with the 10 representatives from civil societies/private sector and scientific community to prepare the meetings of the multi-stakeholder forum on science/technology and innovation for the Sustainable Development Goals/ as well as in the development and operationalization of the online platform/ including preparing proposals for modalities for the forum and the online platform. The 10 representatives will be appointed by the Secretary-General/ for periods of two years. The team will be open to the participation of all United Nations agencies/funds and programmes and functional commissions of the Economic and Social Council and it will initially be coordinated by the entities that currently integrate the informal working group on technology facilitation/ namely the (cad) office.

80. We re-emphasize the Secretary-General's in consultation with the Member States to ensure a regular and periodic consideration at the session of the General Assembly in the preparation for the 2015 Summit of the High Level Political Forum, which outlines critical milestones towards coherent, efficient and inclusive global development, and re-emphasize at the global level the need to ensure that the relevant instruments, including the Sustainable Development Goals, are fully implemented. We also re-emphasize the need to ensure that the relevant instruments, including the Sustainable Development Goals, are fully implemented. We also re-emphasize the need to ensure that the relevant instruments, including the Sustainable Development Goals, are fully implemented.

81. We reaffirm our commitment to achieving the Agenda and realizing it to the best of our ability for a better world for all.
