finance

# Financing strategies under development

## Tanzania

Third Five Year National Development Plan

Reforms:

- Tax policy
- SME financing
- Alternative project financing
- Subnational INFF for Zanzibar

## Djibouti

Supports Djibouti Inclusion, Connectivity and Institutions plan to 2030

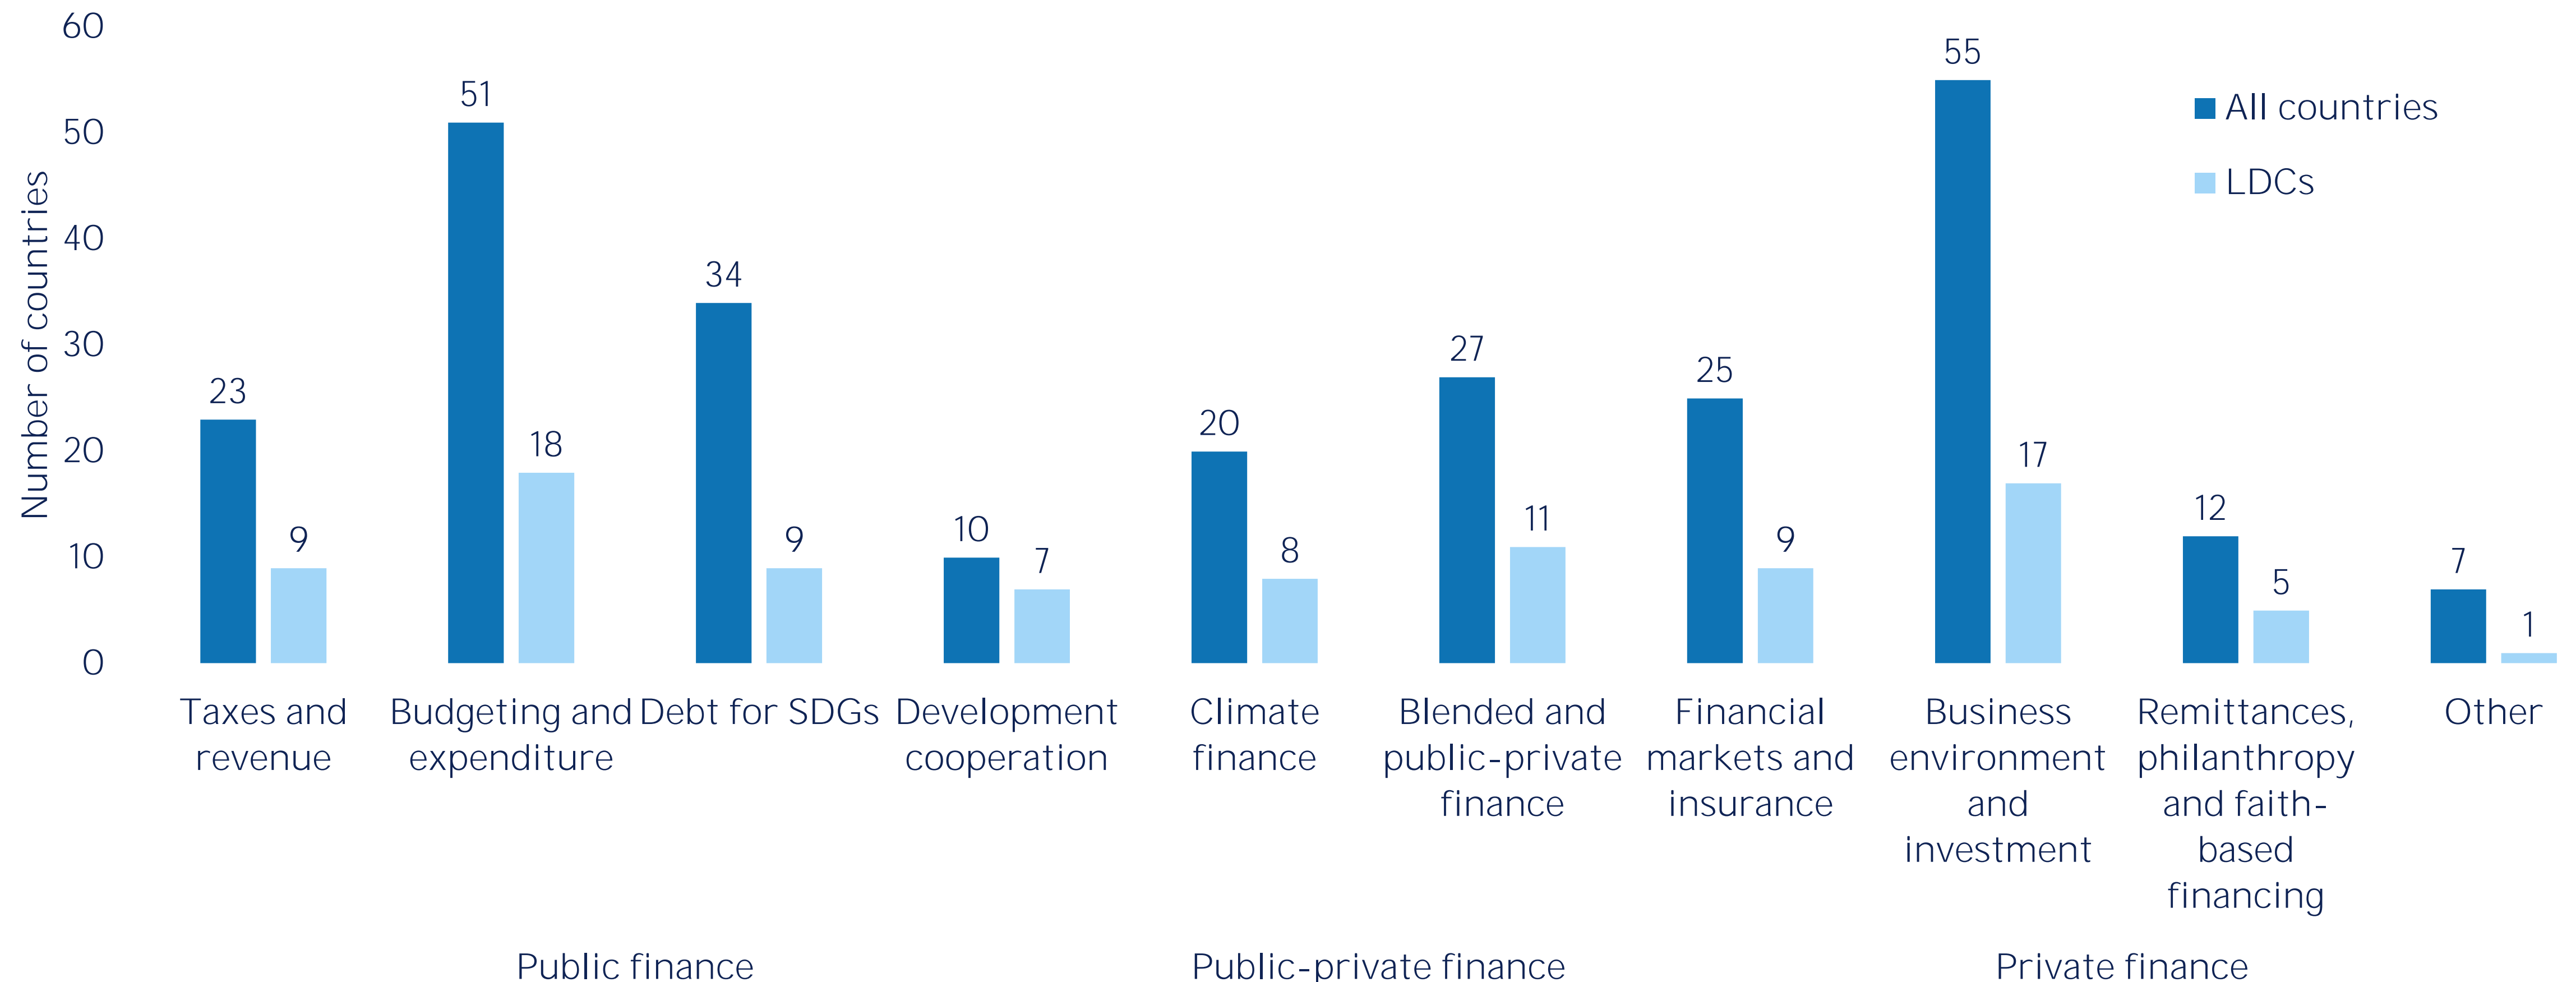

Ministry of Economy and Finance in charge of Industry; INFF technical committee

Four objectives:

- i. Increased SDG investment
- ii. Increased DRM
- iii. Accelerated private finance
- iv. Introduction of innovative financing

# Financing reforms

Governments are using INFFs to advance more than 250 financing reforms

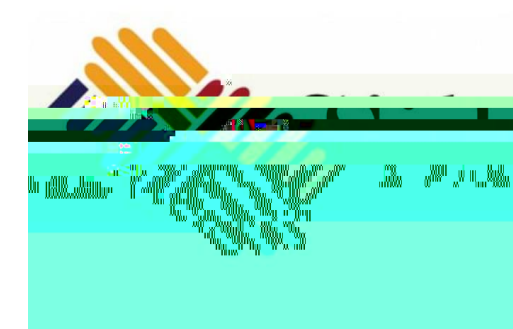

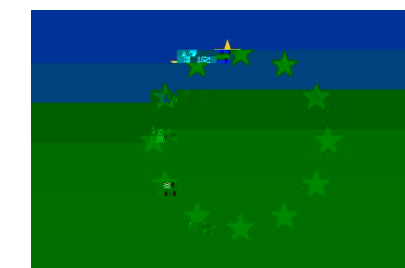

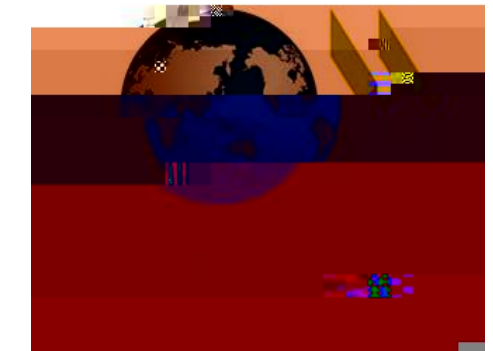

3 Where can I find  
more information?

The INFF Facility is strengthening the international architecture for supporting country-led INFFs.

The facility works in three important ways:

- 01 Responds to country demand for technical assistance
- 02 Deepens cooperation between public, private, and civil society actors, helping national institutions deliver reforms
- 03 Provides a platform for countries to share, connect and learn from one another and access innovative tools, knowledge and guidance.
