Statement by
H.E. Mrs. CLAUDIA BLUM

Based on this view, Colombia has mainstreamed a gender perspective into the various components of the National Development Plan 2006-2010, including in job creation, social equity and poverty reduction strategies. Also, legislation promoting empowerment of women has been strengthened in various fields. These actions are

decisive to reduce factors of vulnerability to violence.

Likewise, the Democratic Security Policy implemented since 2002 has progressively

Fight against impunity has received special attention in the Secretary-General's reports. In this area, in addition to severe penalties and legal measures for redress, it is essential to strengthen the capacity of institutions responsible for law enforcement.

In the case of Colombia, the new prosecutive system has been established.
